Similar to a friendship book wherein people write notes or messages for the owner, a deco is a handmade piece of art created from a variety of materials and usually involves cardstock. In this book they have created decos from CDs, restaurant drink coasters, vintage greeting cards, plastic report cover folders, manila tags, cardstock, watercolor paper and decorative papers. There are no rules about the size, shape, number of pages, theme, decorations, or the materials you choose for your Deco. 52 pages / 12 complete book projects

**Altered Books 104 \$17 on sale for \$10.** Altered Books and Altered Art seem to be falling into

two categories: personalized and personal. Personalized art alters something to fit your creative style, while the art of the personal infuses a work with meaning, a message or an emotion. Each category has its benefits and pleasures. *Altered 104 - Everything!* offers both kinds of projects and ways to make the personalized the personal. As we travel on this art journey together, one of the harder steps will be putting meaning into your art. There are many small and large ideas scattered across these pages aimed at achieving that end. 52 pages / 56 projects
